Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on June 5, 2003 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 5 and 7-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pardo (U.S. 4,498,695) in view of Piotrowski et al. (U.S. 6,244,457). Pardo discloses the claimed invention except for the spacing between the pin and the pin receiving opening. Piotrowski et al. teaches that it is known to provide spacing between a pin and a pin receiving opening to allow for movement of the lid (see col.5 lines 47-63). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the lid assembly of Pardo with spacing between the pin and pin receiving opening, as taught by Piotrowski et al., in order to allow enough play so that the lid can be more self seating, as set forth in col. 10 line 64 through col. 11 line 2 of Piotrowski et al.

Art Unit: 3727

Pardo teaches a lid assembly having an elongated arm 18, a lid 16 and a pin 56. The elongated arm 18 is movable between an upward position and a downward position as set forth in col. 5 line 63 to col. 6 line 11. The downwardly extending boss is the downwardly extending wall 60 of the arm shown in figure 4 adjacent lead line 18. The pin receiving opening of the boss is element 62. The lid has a centrally positioned projection 44 with a pin receiving opening at 54. The condensate rim is shown at lead line 64.

Allowable Subject Matter

4. Claims 4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. THIS ACTION IS NON-FINAL.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stewart is cited for teaching that it is known to provide a loose pivotal connection between a cover and support bar (see col. 3 lines 42-52).

7. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703)305-3579. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a USPTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into group 3720 will be promptly forwarded to the examiner.
